

Download books directly to the Color Nook and Nook Tablet from the North Carolina Digital Library using the Overdrive Media Console App!

1st, download the app from the Barnes & Noble app store:

Press home button and when bottom pop-up screen appears, press apps icon.

At top of screen, tap "SHOP NOW."

In search field at bottom, type in "OverDrive Media Console." This is a free app. Tap on the button that says "Free." And again on "Confirm."

Enter your Barnes & Noble password.

App will then download and install.

Next, authorize your Adobe ID and begin downloading books:

Click on Overdrive Media Console icon

Click the menu button at bottom of screen and then "App Settings" from the options that pop-up at the bottom of the screen.

Authorize device (if you already have an Adobe ID) using your username and password or create an adobe ID

Tap menu button at bottom (right) of screen.

Of those options, tap "Get books."

At bottom of "Get Books" screen, tap "Add a library."

Input your zip code and tap "Search."

A library or a list of libraries in your area should appear. Select your local library or library system. Another screen will appear detailing the one you selected and listing the North Carolina Digital Library below. Tap the star (will then appear yellow) in the North Carolina Digital Library box.

Tap menu button and select the "Get Books" icon that appears.

Tap the North Carolina Digital Library box.

Tap "Login" toward the upper right corner of the screen. You may receive a security warning. If so, click "Continue."

Make your book selection and proceed through the check-out process. The book will download directly to the Overdrive Media Console app on the Nook.
